

[Docket No. RP95-413-000]

Northwest Pipeline Corp.; Notice of Petition for Declaratory Order

August 15, 1995.

Take notice that on August 2, 1995, Northwest Pipeline Corporation (Northwest) filed, pursuant to Rule 207(a)(2) of the Commission's Rules of Practice and Procedure, 18 CFR 387.207(a)(2), a petition for a declaratory order finding that rolled-in rates are appropriate for the costs and services associated with the new facilities certificated in Docket Nos. CP93-613-000, -001, and -002 (Northwest Natural Expansion Project) and CP93-673-000, -001, and -002 (Northwest Expansion II Project).

Northwest states that, subsequent to receiving certificates for the Northwest Natural and Expansion II Projects, the Commission issued its Policy Statement on Pricing Policy for New and Existing Facilities Constructed by Interstate Natural Gas Pipelines wherein the Commission provided procedures in conjunction with the certificate process for obtaining a predetermination on the rate design of new facilities. Although it has already received final certificate authority for its expansion projects, subject to its request for rehearing, Northwest states it desires to obtain rate certainty, specifically, rolled-in rates, with respect to these projects prior to placing rates into effect in its general rate proceeding that would include the costs and services associated with these projects.

Northwest states rolled-in rate treatment would be appropriate for the expansion projects since the facilities will be an integral part of Northwest's existing system, provide specific operational and financial benefits, and impact the rates of existing customers less than five percent.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 6, 1995, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate in any hearing therein must file a motion to intervene in accordance with the

Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Panhandle Eastern Pipe Line Company; Notice of Proposed Changes in FERC Gas Tariff

August 15, 1995.

Take notice that on August 9, 1995, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed on Appendix A to the filing. The proposed effective date of these tariff sheets is September 8, 1995.

Panhandle states that the purpose of this filing is to implement Rate Schedule FFT for a Flexible Firm Transportation service on Panhandle's system. Rate Schedule FFT is designed to respond to the needs of what may well be overlapping segments of Panhandle's market: (i) those shippers that desire to bear the risk that the difficult task of assembling an inventory of supplies to satisfy resale needs during periods of peak demand can be accomplished by limiting the firm transportation component of those requirements to only a portion of a year; (ii) those shippers for whom the increased use of hedging and other sophisticated purchase strategies calls for the availability of the limited term service contemplated by Rate Schedule FFT and (iii) other emergent needs for interim service on the Panhandle system. Although this service is designed for the needs of these specific markets, it is available to all shippers.

Panhandle further states that Rate Schedule FFT is intended to enhance the transportation services available to shippers. While service will be offered on an open access basis, each agreed upon service level will be subject to a specific agreement between the shipper and Panhandle under Rate Schedule FFT. The availability of service under Rate Schedule FFT necessarily will be subject to the operational limitations respecting the capacity on the Panhandle system.

Panhandle states that copies of this filing have been served on all current shippers and applicable state regulatory agencies.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before August 22, 1995. Protests will be considered by the Commission in

determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
